

Hi, my name is Thierre

I am a dedicated person.
when i focus on a project i give it
my best.
i will hardly give up on anything
that is proposed to me
so, if you give me a chance to show
my work, you will be surprised

Education

I always had a taste for design, the first steps I took alone, in front of the computer and a dream, over time I sought to specialize, I acquired training in the school of online courses Udemy, The global marketplace leader for teaching and learning

Skills

Adobe Illustrator
Adobe Photoshop

**MY
FAVOURITE
PROJECTS**

LOGOS

With a focus on simplicity, I seek to bring in my projects originality and purity, something that is easy and pleasant to see, without visual pollution, just what is necessary to identify name, purpose and area.

PRINTS

Here, some projects that I participated directly as lead designer, designed for print and web dissemination. The simplicity and focus on what needs to be seen is once again applied, and so I seek in every project I do.

GAIUS · FOTOGRAFIAS

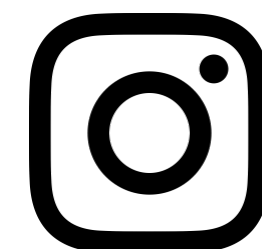

MY GOALS

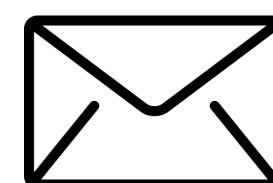

My goal is to be able to show the world the simplicity of design and how people can have their ideas put on paper and visualize what they dreamed of, to present to the world the beauty of design in each project, each one with its individuality and originality.
