Personal Statement

Working with web & blockchain development since 2019, I have co-founded and developed multiple projects and applications which impact the Web and the Blockchain market.

WORK EXPERIENCE

MetaMath, *Founding Partner*

DEZ 2021 - MOMENT

- Focused on cutting-edge technology, MetaMath uses the best technologies and practices to create innovative blockchain solutions.
- We abstract the complexity of interacting with the blockchain. Our mission is to create user-friendly applications to make the transition from conventional web applications to Web3 seamlessly and intuitive. Always focused on delivering the best experience to the endpoint client.
